Cooperation

The TPCoE aims at raising awareness and improving security with respect to terrorism, asymmetric and hybrid threats. In this regard, Centre is open to cooperation with people who have experience in project implementation and obtaining EU funds.

The TPCoE offers expert knowledge and experience in the implementation of EU projects devoted to the prevention of terrorist, asymmetric and hybrid threats. If you are educated or have experience in the field of European projects and would like to work in the Centre, see the information available on our website in the Career section.
