## Establishing cooperation between TPCoE and NATO StratCom

TPCoE in cooperation with the NATO Strategic Communication Center (NATO StratCom) organized workshops under the project No. PL / 2018 / PR / 0061 "More efficient identification of asymmetric threats - trends, indicators, relationships".

As part of the project on terrorism in the context of asymmetric threats, on 7-8 December 2020, ABW officers took part in a training course conducted by NATO StratCom experts. The training concerned issues related to terrorist and asymmetric threats in cyberspace and media.

On December 14-15, 2020, ABW officers participated in a workshop led by NATO StratCom. A group of 40 officers participated in the webinar on asymmetric

threats related to cybersecurity and strategic communication. The event also provided an opportunity to learn more about the activities of this Center and its role in identifying asymmetric and hybrid threats.

*Project No. PL/2018/PR/0061 co-financed by the European Union from the funds of the National Program of the Internal Security Fund.*
