TPCoE at the Border Guard Training Center in Kętrzyn

CPT w Centrum Szkolenia SG w Kętrzynie

On July 13, 2021, the ABW's TPCoE officers made a study visit to the Border Guard Training Centre (CSSG) in Kętrzyn.

The purpose of the visit was to establish training cooperation between ABW's TPCoE and CSSG in the field of shaping a security culture by increasing anti-terrorist awareness among officers responsible for border security, as well as exchange of experiences in the field of broadly understood terrorist prevention.

In addition to presenting the scope of the Centre's activities and detailing future cooperation with the Border Guard, during the meeting, TPCoE officers also presented the 4U! social campaign, provided the necessary instructions on behaviour during counter-terrorist activities, receiving the so-called suspicious package and remaining safety while staying abroad.
