## A series of CT-trainings for the Office of the Chancellery of the President

On October 14-15, 2021, experts from Terrorism Prevention CoE started a series of on-site training courses for the Office of the Chancellery of the President of the Republic of Poland. At the same time, some of the remaining staff will take courses in the field of terrorist prevention, using the e-learning platform developed and offered for this purpose by the ABW Terrorist Prevention Center.

During the training, important information is provided on: terrorist threats, practices related to combating terrorism and recommended actions in the event of

terrorist acts of violence.

Conducting trainings on-site or through e-learning platform is a model example of activities aimed at raising CT-awareness within the structures of the highest government administration body, whose management tries to contribute to shaping a harmonized and stronger security culture among all employees.
