TPCoE AT THE POLSECURE FAIR

On April 27-29, 2022, the TPCoE will represent the Internal Security Agency at the international POLSECURE fair and public safety conference.

Polsecure will include an exhibition and a series of conferences about public security issues and uniformed services, which report to the Ministry of Interior and Administration. The organizers of the event are Kielce FAIR and the Police Headquarters. The event takes place under the auspices of the Minister of the Interior and Administration.

During the event, CPT ABW will present actions undertaken to build a stronger security culture in Poland. The Center will present information about the organized trainings, workshops, its publications, as well as exercises testing the resistance of Polish critical infrastructure to malicious use of innovative technologies, CBRN substances and explosives by extremists.

During the fair, we intend to emphasize the special role of our unit within the Internal Security Agency and in the Polish security architecture in the presence

XX

of a wide range of national and international law protection institutions, as well as other partners from the security, defense and public order sectors.
