Participation of TPCoE in EU-Hybnet project workshops

On 5 and 6 April 2022 in Rome, representatives of TPCoE participated in two workshops organized by the EU-HYBNET project consortium. The project focuses, among others, on identifying knowledge gaps in the field of hybrid threats and building a network of security specialists in the EU to counter hybrid threats.

The topics of the first day of the workshop were devoted to the expected future manifestations of hybrid threats and their evolving nature.

The second of the meetings was aimed at discussing and highlighting the results and findings of the EU-HYBNET project obtained in its second year of project implementation. The event also discussed the issue of
