udsc-1

On 7 and 11 July 2022, TPCoE experts conducted anti-terrorism prevention training for the staff of the Office for Foreigners.

The training included a series of presentations on best practices and recommended behaviour in the event of a terrorist incident. The audience was introduced to the 4U! public awareness campaign conducted by TPCoE. They also discussed the issue of proper behaviour in a hostage situation.

The training is part of an educational campaign initiated by TPCoE to raise awareness also among state institutions which, against the background of their role in granting international protection to foreigners, participate in decisions affecting the state of national security.
