## TPCoE training course for the teaching staff of XL Stefan Żeromski High School in Warsaw

Szkolenie CPT ABW dla grona pedagogicznego XL Liceum Ogólnokształcącego z Oddziałami Dwujęzycznymi im. Stefana Żeromskiego w Warszawie

On 14 November this year, TPCoE experts conducted a training session on information security policy building and anti-terrorist prevention at XL Stefan Żeromski High School in Warsaw.

During the meeting, knowledge was imparted on best practices and recommended behaviour in the event of a terrorist incident - based on the 4U! social campaign - and issues concerning the building of an organisation's security policy in the context of existing threats were raised.

The training is part of the TPCoE's efforts to build the resilience of Polish educational institutions against extremist-terrorist threats
