## Training for National Information Processing Institute

Szkolenie dla Ośrodka Przetwarzania  
Informacji

As part of its mission to create anti-terrorism awareness, on 12 and 20 December 2022, TPCoE conducted a training course for experts of National Information Processing Institute in Warsaw.

In the first part (12.12.2022), the training covered information threat prevention issues related to secure information management within a corporate entity and a public institution.

In the second part (20.12.2022), the meeting was devoted to discussing, among other things, the principles of proper response in the event of a terrorist incident, including a mass murderer attack, a hostage situation as well as the danger of using explosive devices.

The training is part of an educational campaign initiated by TPCoE to raise awareness also in state institutes of relevance in the R&D context.
