## Third EU-HYBNET project cycle

TPCoE, as a member of the consortium, took part in a meeting of EU-HYBNET partners and network members entitled 'Gaps and Needs'. The event took place on 27 and 28 March 2023 at the Università Cattolica del Sacro Cuore (UCSC) in Rome.

The aim of the meeting was to identify the gaps and needs of pan-European practitioners and other relevant actors (related to industry, academia, NGOs, among others) in addressing hybrid threats!

The event hereby launched the third cycle of the EU-HYBNET project. The Gaps and Needs meeting is crucial, it is the core of the project activities, it identifies, among other things, the priority knowledge gaps and needs on which the work in the coming 17 months will focus. EU-Hybnet will focus, among other things, on developing the most promising innovations to fill the gaps and needs identified during the Gaps and Needs and will recommend how to implement as well as standardise the innovations. The event also sets out research and training directions that will

Trzeci cykl projektowy EU-HYBNET

benefit all EU-HYBNET members.
