## Training at the Regional Branch of the Agricultural Social Insurance Fund (KRUS) in Częstochowa

On 23 May 2023, a TPCoE expert conducted a training course for managers of Field Offices of the Regional Branch of the Agricultural Social Insurance Fund (KRUS) in Częstochowa.

During the training recommended ways of behaviour in the event of a terrorist event, including a mass murderer attack or the danger of perpetrators using explosive devices, as well as issues related to a dangerous parcel were discussed.

The training was conducted as part of TPCoE experts' promotion of the 4U! social campaign and was another in a series of training sessions to raise anti-terrorism awareness among employees of KRUS branches.
