## TPCoE training for judges and employees of the Court of Appeal in Warsaw and representatives of other courts

Szkolenie CPT ABW dla Sędziów i pracowników Sądu Apelacyjnego w Warszawie oraz przedstawicieli innych sądów

On 25-26 May this year, TPCoE conducted a training on building information security policy for judges and employees of the Court of Appeal in Warsaw and representatives of courts operating in the Warsaw appellate area.

The meeting was devoted to issues related to building an organisation's security policy in the context of current threat vectors, including terrorist and information threats.

The training discussed, among other things, issues

related to the vulnerability of persons and objects to unauthorised interference. In addition, topics related to the tasks of a security leader in an organisation and the relationship that exists between the security division and employees were addressed. It also focused on issues related to the risk analysis process and discussed the impact tools used for unauthorised information gathering.
