TPCoE training for Tricity Rapid Transit Rail Ltd. (PKP SKM)

Szkolenie CPT ABW dla PKP SKM w Trójmieście

On 5-6 June 2023, an expert from TPCoE gave a presentation on anti-terrorist prevention to the management of Tricity Rapid Transit Rail Ltd.

This was another such event carried out for the Company as part of its annual defence training. Taking into account the current geopolitical situation, the meeting addressed issues related to the level of exposure and vulnerability of transport infrastructure facilities to terrorist or diversionary threats, taking into account various forms of activity of extremist-terrorist communities.

A characterisation was also made of contemporary threats that may be caused by the excess and massiveness of information in the environment relevant to rail transport.

The event was another educational initiative of this kind for Tricity Rapid Transit Rail Ltd. as part of

TPCoE's efforts to foster security policy.
