TPCoE training for the Małopolska Provincial Office in Krakow

Szkolenie CPT ABW dla Małopolskiego
Urzędu Wojewódzkiego

On June 20-21 this year, TPCoE conducted another training session on building information security policy and counter-terrorism prevention for the Directors of the Małopolska Provincial Office in Krakow and employees of the Department for Foreigners in Krakow.

The meeting was devoted to issues related to building an organization's security policy in the context of current threat vectors, including terrorist threats. During the training, issues related to the vulnerability of people and objects to unauthorized intrusion were discussed, among others. In addition, topics related to the tasks of the organization's security leader and the relationship that exists between the security division and employees were addressed. There was also a focus

on issues related to the risk analysis process and a discussion of impact tools used for unlawful information gathering. The meeting also imparted knowledge on best practices and recommended behaviours, in the event of a terrorist incident - based on the 4U! social campaign - regarding the activity of a mass killer, the perpetrator's use of explosives and contamination agents.
