Training for KRUS in Lublin

Training for KRUS in Lublin

On 5 and 17 September 2024, a CAT ABW expert conducted a training course for employees and managers of the field offices of the Regional Branch of the Agricultural Social Insurance Fund in Lublin.

During the training, recommended behaviour in the event of a terrorist incident was discussed, including in the case of a mass murderer attack and threats related to the possible use of explosive devices.

Issues relating to dangerous consignments were also addressed. The training was conducted by a CAT expert as part of an effort to build resilience against threats among KRUS branch staff.
