Training for the Provincial Administrative Court

Training for the Provincial
Administrative Court

On 1 October 2024, a CAT ABW officer conducted information security training for judges and assessors of the Warsaw Provincial Administrative Court.

The particular importance of observing the rules related to information circulation in the context of the security of the Republic of Poland was emphasised. Examples of protection mechanisms in the context of counter-intelligence, terrorist as well as hybrid threats were described, while examples of the most common mistakes were indicated. Moreover, the threats resulting from careless participation in social media were discussed, among others.

The training is part of awareness-raising activities in national state institutions.
