Training for the Mazovian
Voivodeship Office

CAT Expert ABW conducted a series of training sessions for officials and employees of the Mazovian Voivodeship Office at the turn of July and August 2024.

During the training, issues related to anti-terrorist prevention, i.e. recommended ways of behaviour under the 4U! Campaign, which are applicable in the event of a terrorist incident, were presented.

The training is an element of the ABW's efforts to raise anti-terrorist awareness and build resilience against threats among field-level government officials.
