Training for judges of the Voivodship Administrative Court in Opole

Training for judges of the
Voivodship Administrative
Court in Opole

On 14 November 2024, a CAT ABW expert conducted a training session for judges of the Voivodship Administrative Court in Opole.

In the context of information security issues, examples of methods of acquiring information by foreign structures, typical mistakes resulting in the leakage of sensitive data and threats resulting from careless use of social media were discussed. In the following part, the assumptions of security procedures related to possible terrorist threats were discussed, e.g. in connection with so-called dangerous consignments, which may contain explosive devices or CBRN agents.
