Training for the Chancellery
of the President of the
Republic of Poland

On 19 January 2026, experts from the Counter-Terrorism Centre of the Internal Security Agency conducted training on anti-terrorist prevention and online threats for employees of the Chancellery of the President of the Republic of Poland.

The event was attended by the Office's management staff, who were familiarised with the principles of the '4U!' social campaign, implemented by Department IX of the ABW's Counter-Terrorism Centre, which includes practical recommendations on how to behave in situations involving terrorist threats.

The meeting also discussed issues related to cyberterrorism prevention, in particular in the context of the risks arising from the use of the internet and potential areas of risk arising in the course of daily work duties.

The training was part of the activities of Department IX CAT ABW aimed at raising awareness and promoting a culture of protection, as well as strengthening institutional resilience and building a coherent prevention system in public administration.
